

WESTERLY HAS \$10,000 FIRE LOSS

Wheeler, Pendleton and Haviland Cottages at Pleasant View
Burned—Plenty of Aid, But no Water to Subdue Flames
—Third Cottage Belonged to Norwich Family—Seized
Liquors Destroyed.

The cottages at Pleasant View owned by Mrs. Emily K. Wheeler of East Hartford, Mrs. Louise M. Pendleton of North Stonington and Mrs. Margaret Del. Haviland of Norwich were destroyed by fire Friday morning. Just before 8 o'clock workmen employed in the erection of a sea wall in front of the large cottage owned by Michael Higgins, just west of the Wheeler cottages, saw smoke issuing from the Pendleton cottage located between the Wheeler and the Haviland cottages. They forced entrance and saw fire in a closet on the first floor. The room was filled with smoke, but the blaze was of small proportion, and could have been quenched with a few buckets of water, but there was no bucket at hand and the only water available was from the ocean. The fire broke into the Haviland and Wheeler cottages in quest of buckets, but none could be found. Then messengers were sent to the Kenyon farm house half a mile away after buckets. By this time the flames had gained considerable headway.

The fire was seen by George E. Broughton, who was at work on his cottage on the beach, and he telephoned to Westery to see if there was a cottage fire and requested the telephone operator to summon assistance. The news was disseminated to several cottage owners and in short order automobiles were speeding towards Pleasant View. Thomas McKenzie, superintendent of the water works, had just received information by telephone from the Kenyon farm that a cottage was burning at the beach. He placed fire hoses and garden hoses in the department automobile, disregarded the spread law on the run and was the first from Westery to arrive at the beach. He turned on the water, but the main, which had been shut off for the season, entrance was forced into the Higgins cottage, a line of garden hose attached to the main and there was a stream of water on the side of the Higgins cottage. This stream, with the hose and the water thrown upon the roof, saved that structure from destruction.

The fire in the Pendleton cottage had spread rapidly, enveloping the Wheeler and Haviland cottages on either side and the three buildings were soon burning brightly. Nothing could be done to save them and they were totally burned with their contents. All the furniture standing on the beach, including the three cottages, were destroyed.

The motor-driven wagon of the Watch Hill fire district, equipped with hose, portable extinguishers and bucket, arrived quickly, but could only aid in preventing a spread of the fire, as the three cottages were then practically destroyed.

As there is no hydrant service at Pleasant View, there was no opportunity to use fire hose, therefore the apparatus of the Westery fire district
